The labels and the names whereby these schools may call themselves mean but little. Many will proclaim themselves as esoteric schools and will communicate nothing of a truly esoteric nature. They will but attract to themselves the gullible and the foolish. There are many such functioning in this manner today.

**Others may refrain from all outer indication of esoteric and occult training, and yet convey the needed teaching. They will seek to relate the One, the Monad, to the personality, and to evoke in their students a true sense of synthesis.**

# Holosynthesis

Holism is the theory or understanding that the parts of any whole cannot exist and cannot be understood except in their relation to the whole; "holism holds that the whole is greater than the sum of its parts".

Synthesis relates the whole to the One Source and the evolutionary purpose that created the whole. So the energy of synthesis creates a process of evolutionary unfoldment towards perfection.

Holosynthesis as a spiritual process can be understood as an integral and evolutionary approach to soul awareness and later to the One Life or Monad.

## ➤ **Synthesis in the new schools**

- This sense of synthesis is one of the things which the new esoteric schools will develop in their students and neophytes, for it will be the people trained interiorly in these schools who will be the builders of the new world and the trainers of future public opinion. The labels and the names whereby these schools may call themselves mean but little. Many will proclaim themselves as esoteric schools and will communicate nothing of a truly esoteric nature. They will but attract to themselves the gullible and the foolish. There are many such functioning in this manner today. **Others may refrain from all outer indication of esoteric and occult training, and yet convey the needed teaching. They will seek to relate the One, the Monad, to the personality, and to evoke in their students a true sense of synthesis.**
- It is the sense of synthesis, putting it very simply, which will be the goal of all the educational movements, once the [Page 122] New Age idealism is firmly established. Physical coordination, personal integrity (which involves primarily the control and later the negation of the astral body), and personality integration will be the essential first steps. To this will succeed processes whereby the fusion of the personality with the soul, of the lower self with the higher Self, and of form with the divine Dweller in the form will follow next. **RI-121-122**
